

Hello family and friends,

We want to give a quick update on how things have been going recently. We have been in Diriamba living now for a little over a month. We have been pretty busy here between moving into our place we are renting, buying a vehicle, medical checkups for Deby and Julianna and purchasing the last items we need for her as well as participating with some of the ministries here at the YWAM base.

As God continues to call us deeper into trusting Him, He continually shows us why He is so worthy of our trust. His kindness and faithfulness demand a response of complete surrender and trusting all to Him. God has been speaking to me about how my comfort and confidence should come only from the fact that He is Lord of my life. It is amazing to grow in hearing His voice and taking steps of faith in obedience to how He leads.

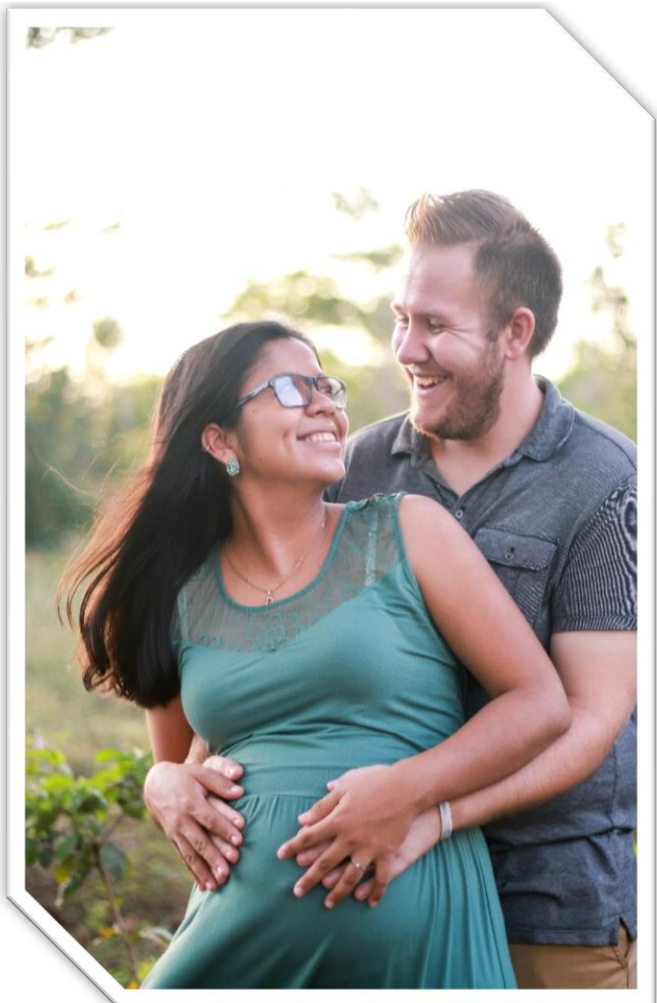

We are extremely grateful for how you have come around in support to make it possible to be here renting a place to live, purchase a car and be equipped and ready to receive our precious Julianna. Deby is 37 weeks already!!!! During our last doctors visit the doctor reiterated once again how he considers it a normal labor anytime between 37-40 weeks. Those words really sunk in this time. Of course, we have our fears and need to learn A LOT but we are really excited for our little princess to be born. Deby has been much more tired lately but is doing well and based on the force that Julianna kicks with we can tell she is strong and healthy as well.

Please be praying for the DTS in Bluefields. They have just finished their lecture phase and are going into the 2-month outreach phase of their DTS right now. This group of 12 young men and women are truly wonderful. It was a great joy for us to get to know them and walk together with them for the first month and half of their DTS. They are a bold group and desire greatly that others would know God and experience freedom and transformation like they have been experiencing these last three months.

Right now, they will start their outreach in Bluefields then go to Corn Island a place near Bluefields and make their way to Juigalpa another city in Nicaragua as they move towards Managua the capital. Please pray for them to have divine encounters and for the Holy Spirit to empower them to transform lives with the Gospel. Once they get to Managua their vision is to travel to Europe and then to Mozambique. I don't know if you have heard of the cyclone that happened in East Africa but Mozambique is a country that was heavily affected. The DTS has a big financial need to be able to go but are traveling to Managua in faith believing that the finances will arrive and they can help in the relief efforts there. I encourage you to look up the news on Mozambique if you have not heard of what has recently happened and to pray for them and the DTS team.

Prayer Requests:

- Julianna safe and healthy delivery
- Strength and good health for Deby and for post-delivery recovery
- Caleb renewing residency middle of June and application process for Julianna's US citizenship
- YWAM Bluefields DTS outreach and for the people of Mozambique

Thank you all so much for your great love and generosity!
